How Does It Work For The Client?

Your client will save time and hassle as someone else prepares their meals for them, and you will rest assured that they're adhering to your prescribed nutritional recommendation. **Every diet plan is prepared to your specific protocols**, based on your nutritional recommendation or specified diet. Each meal is fully personalized and no two client plans are alike. Use of superfoods is a must, natural and organic produce is used, and I add no extra salts or sweeteners.

Simply refer your client to our services, or have them reach out to me for more information. Once they agree to move forward, I'll complete an intake which specifies their preferred plan below, and you hand over their meal protocol.

Depending on plan chosen, **you as the referring source will receive 30% first month's revenue as commission, and 10% each month of their relationship with me thereafter, in perpetuity.**

Clients **place food orders every Friday** for the following week. Their meals will be **delivered to them on Mondays and Wednesdays** in 2-3 day bulks, to optimize freshness.
